

Prep Instructions for Colonoscopy (COLYTE)

THE DAY BEFORE YOUR PROCEDURE

- The evening before your procedure, at 4 PM:

- Take 2 Dulcolax and follow with a glass of water.
- Add water and Crystal Light to the Colyte container obtained from your pharmacy. Shake and refrigerate.

- The evening before your procedure, at 5 PM:

Drink an 8-ounce glass of Colyte solution every 15-20 minutes until one-half of the solution is consumed. Drink first half over 2-4 hours.

THE DAY OF YOUR PROCEDURE

The morning of your procedure, at _____ AM:

Drink an 8-ounce glass of Colyte solution every 15-20 minutes until you finish the entire container of solution.

FINISH prep and all clear liquids at least 2 hours before scheduled procedure.
